## Description:

Jane Gardam's marvelous stories of young girls on the threshold of womanhood—*God on the Rocks* and *Crusoes Daughter*—have delighted fans and critics alike. These modern classics (*The Independent*) are now joined by a new novel that is equally fresh and genuine, comic and touching. Jessica Vye introduces herself with an enigmatic pronouncement: I ought to tell you at the beginning that I am not quite normal, having had a violent experience at the age of nine. A revered author has told Jessica that she is, beyond all doubt, a born writer. This proves an accurate prediction of the future, one that indelibly colors her life at school and her perception of the world. Jessica has always known that her destiny would

be shaped by her refusal to conform, her compulsion to tell the absolute truth, and her dedication to observing the strange wartime world that surrounds her. What she doesn't know, however, is that the experiences and ideas that set her apart will also lead her to a new and wholly unexpected life. Told with grace and inimitable wit, *A Long Way to Verona* is a wise and vivid portrait of adolescent discovery and impending adulthood.

Jane Gardam creates settings and characters nearly as complex and individualistic as real life, which does, indeed, make both come alive for the reader. The plot winds with equal individualism and complexity through the story – but I thought of it more as real life than a plot. The novel is a coming-of-age story told in first person by Jessica Vye – an intelligent, articulate, strong-willed, eccentric adolescent girl who is destined to become a writer, so an equally eccentric author who spoke at her school tells her after reading a collection of her stories. The book is set in England during World War II. I gave the book 4 out of 5 stars. The only problem I had with it is that I didn't feel that Gardam was as comfortable with her characters at the beginning of the book as she became a little later.
